GAME #3

Vs

22 APRIL, 2023 | vs OURIMBAH | ALAN DAVIDSON OVAL 1

Back at the Den! It had been a while to be home, especially to get a game on Field One again after the drenched season of 2022. Midweek it was looking like we'd have 17. Rob was the only omission, getting called to work again. Clive was keen despite not getting the "all clear" from his heart specialist. He wisely opted to wait another week. He came to watch though! On Friday afternoon, Dean was giving out a bit of sass about the delay in the line-up being sent out. Mikey D retorted that Dean would be a late scratching for such insolence and oops, he jinxed it as Dean had pulled out by Saturday morning citing a quad injury … either that or MikeyD hid his game shorts.

The boys were hoping to change the habit of playing, as Boz put it, "shit first halves" but for Andy, he was already in it, well dog shit that is, when he rolled around on the grass for his warm-ups and found his jersey was covered in it front and back. He made a quick dash to the taps before kickoff. Thankfully for him no one saw this, heard about it, nor… read about it. Phew! Moving right along. The old boys certainly turned up for the first half giving the Falcons a headache, especially Finchy – who was a Tiger in this team's first two seasons – almost getting knocked out when he headed the ball. Tooley though, now he knows how to use the old noggin'. With an inside pass from a corner kick, McGarvey sent it to Dylan who lined it up for a curler into the goalmouth. Tooley timed it perfectly and headed the ball into the top right corner. It was the least he could do as he was only here for the first half, another birthday party to go to.

Boz, who had the first crack at goal, his shot just soaring over the crossbar, got things going for the second goal when he sent Scotty James up the field. Scotty had already been terrorizing the Ourimbah players, many of them bouncing off him. He should've had an earlier assist when Andy botched his shot by sending it wide. This time, he found McGarvey in space. McGarvey, on his fifteenth consecutive game of scoring, made no mistake in putting this one away. He was set to get his brace not long after but would have to settle for an assist when his shot was blocked by their keeper and rebounded off a defender for an own goal, oops. Micky D and Fitzy, who was tenacious in the chase all the game, had their own chances of putting more numbers on the scoreboard but for the first half, three it would remain.

So, that shitty half that was referred to earlier, well that was saved for the second half, and it gave Ourimbah a sniff as they clawed their way back with two goals of their own. It could've been more if not for the goal keeping heroics of Meady. One shot he deflected with his fingertips to send the ball spiralling off the crossbar. He would also pick up an assist late in the game when he sent MikeyD away for a run down the length of the field. Despite looking like he'd veered too wide to find the target, his shot beat the keeper on the inside post to clip those Falcons wings. Full time whistled shortly after to make it three from three for the Tigers. With Terrigal and Avoca losing their first games of the season, we're now the only undefeated team remaining. Bring on Pluim Park next weekend for the Over 45s showcase day! Special mention to Luca who worked tirelessly again today and edged out Brad and Wallace to get on the 3-2-1 scoreboard.
